

PaintPro[®] Trim

PVC Trim Engineered for Paint

AZEK[®] PaintPro Trim

A Broader Spectrum for Premium PVC Trim

Patent pending exclusive technology. Made in the USA

PaintPro combines advanced engineering and paint technology for the ultimate in design flexibility. PaintPro has the same high-performance and low-maintenance benefits of traditional AZEK trim, but can be painted any color. No primer needed. Just one coat of paint provides solid, clean coverage, even in dark colors. Get work finished faster thanks to quicker drying time. PaintPro can be handled 30 minutes after painting, so you can paint before or after installation. Like traditional AZEK trim, PaintPro is virtually impervious to moisture and adds the benefit of a superior paint bond that enhances long-term performance. PaintPro won't rot, crack, warp or chip and the PVC substrate is backed by the AZEK Lifetime Limited Warranty.

- No special prep needed for painting
- Lightweight, durable PVC trim boards are easy to transport and install
- Curves and molds easily through heat forming
- Two-sided, reversible finish: smooth Traditional and woodgrain Frontier
- Use our collated PaintPro Cortex[®] fastening system with pre-paintable plugs for a fast, clean install

Paint Requirements

- For lighter colors with a Light Reflective Value (LRV) 55 or greater: paint must be 100% acrylic latex
- For darker colors with an LRV less than 55: paint must be vinyl-safe from a vinyl-safe color palette
- Must be painted within 180 days of outdoor UV exposure
- For custom colors, use a coating with solar reflective pigments
- To maximize paint performance, PaintPro should be kept covered and away from sunlight before installation at a job site.

| 5/4 x 12 | 1" x 11 1/4" x 16' | 16' |

PaintPro® Trim PVC Trim Engineered for Paint

A Premium Finish in Any Color Additional 15-Year Paint and Labor Warranty Included

AquaSurTech D100 paint and TruStain products add another layer of premium to PaintPro. Choose from solid or wood grain finish. Brush or spray any color paint to form a powerful molecular bond with the trim substrate. Minimal heat build (even in dark colors) and a flexible finish coating protect AquaSurTech from fading, flaking or peeling. AquaSurTech's 15-year limited warranty protects their paints and stains while the AZEK® Limited Lifetime Warranty protects the substrate.

- A premium finish paint in any color, including color matched custom colors
- Finish AZEK Trimboards, Soffits, Mouldings, Beadboard and more
- Reflective coating heavily reduces heat buildup in all colors, including black
- Robust yet flexible paint bond withstands expansion, contraction and impact
- Exceptionally low Volatile Organic Compound (VOC) levels
- Environmentally-friendly coating with a superior paint bond compared to high solvent coating
- GrainEx and Stain Top Coat can be applied to AZEK's surface to create a dark or wood grain finish without sacrificing maintenance-free convenience
